

LASTEC®

Manufacturer of the
World's Only High-Definition
Articulating Mowers

TURF/COMMERCIAL MODEL 100EFDC

The Model 100EFDC delivers amazing productivity at a price point that is a fraction of other options available on the market.

Since Lastec's introduction of articulating rotary mowers in 1990, the turf industry hasn't had to accept the turf damage caused by wide area decks. Lastec Articulators all cut with the quality of a small push mower no matter how wide you need to cut. The Model 100EFDC is no exception, delivering a 100" (254 cm) wide cut with the accuracy of five 21" (533.4 mm) push mowers.

LASTEC®

Manufacturer of the
World's Only High-Definition
Articulating Mowers

TURF/COMMERCIAL MODEL 100EFD

The spindles are removable with 3 bearings and trash guards for longer life

All decks are constructed from 3/16" (4.76 mm) plate with 3/8" x 1/2" (9.52 mm x 12.7 mm) solid steel bar leading edges

21" (533.4 mm) decks are the smallest in the industry for greater accuracy

Lastec patented belt drives are 5 times more efficient and lower cost to maintain than competitor's hydraulic drives

9" (228.6 mm) gauge wheels are closer to the decks than any competitive mowers making them far more accurate

Each deck is gauged by equally spaced points that allow them to float to any contour

A V-deck design configuration features discharge baffling that evenly distributes grass in the heaviest cutting conditions

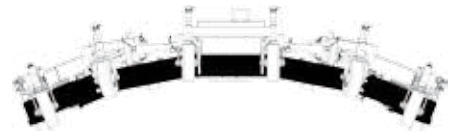

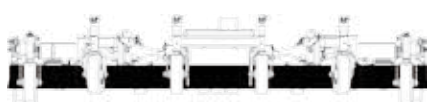

Wheel hubs utilize tapered automotive roller bearings for long life

Gauge wheels are located outside to allow closer precision when trimming

Outer two decks fold hydraulically to 78" (198.12 cm) for ease of transport

All tires are semi-solid to eliminate flats

Quality Rotary Mowers for a World that isn't Flat

100EFD SPECIFICATIONS*

- Tractor Requirements: Minimum 35 hp (26.1 kW) PTO
1565 John Deere Series II
- Cutting Width: 100" (254 cm)
- Transport Width: 78" (198.12 cm)
- Deck Configuration: Five 21" (533.4 mm), 5 1/2" (139.7 mm) deep articulating
- Deck Height Range: 1" to 4 3/4" (25.4 mm x 120.65 mm)
- Overall Weight: 1065 lbs (483 kg)
- Warranty: Two years parts, one year labor

ADDITIONAL ITEMS REQUIRED

- TCB 11475 Double Spool Auxiliary Hydraulic Kit
- TCB 10566 Hydraulic Weight Transfer Kit
- TCA 13791 Vehicle Enclosure Kit
- R66949 Quik-Tatch Weight 4x66 (4)
- TCB 10303 Rear Weight Mounting Kit
