

LASTEC®

Manufacturer of the
World's Only High-Definition
Articulating Mowers

TURF/COMMERCIAL MODEL 3696

One of Lastec's Highest Production Articulating Rotary Mowers

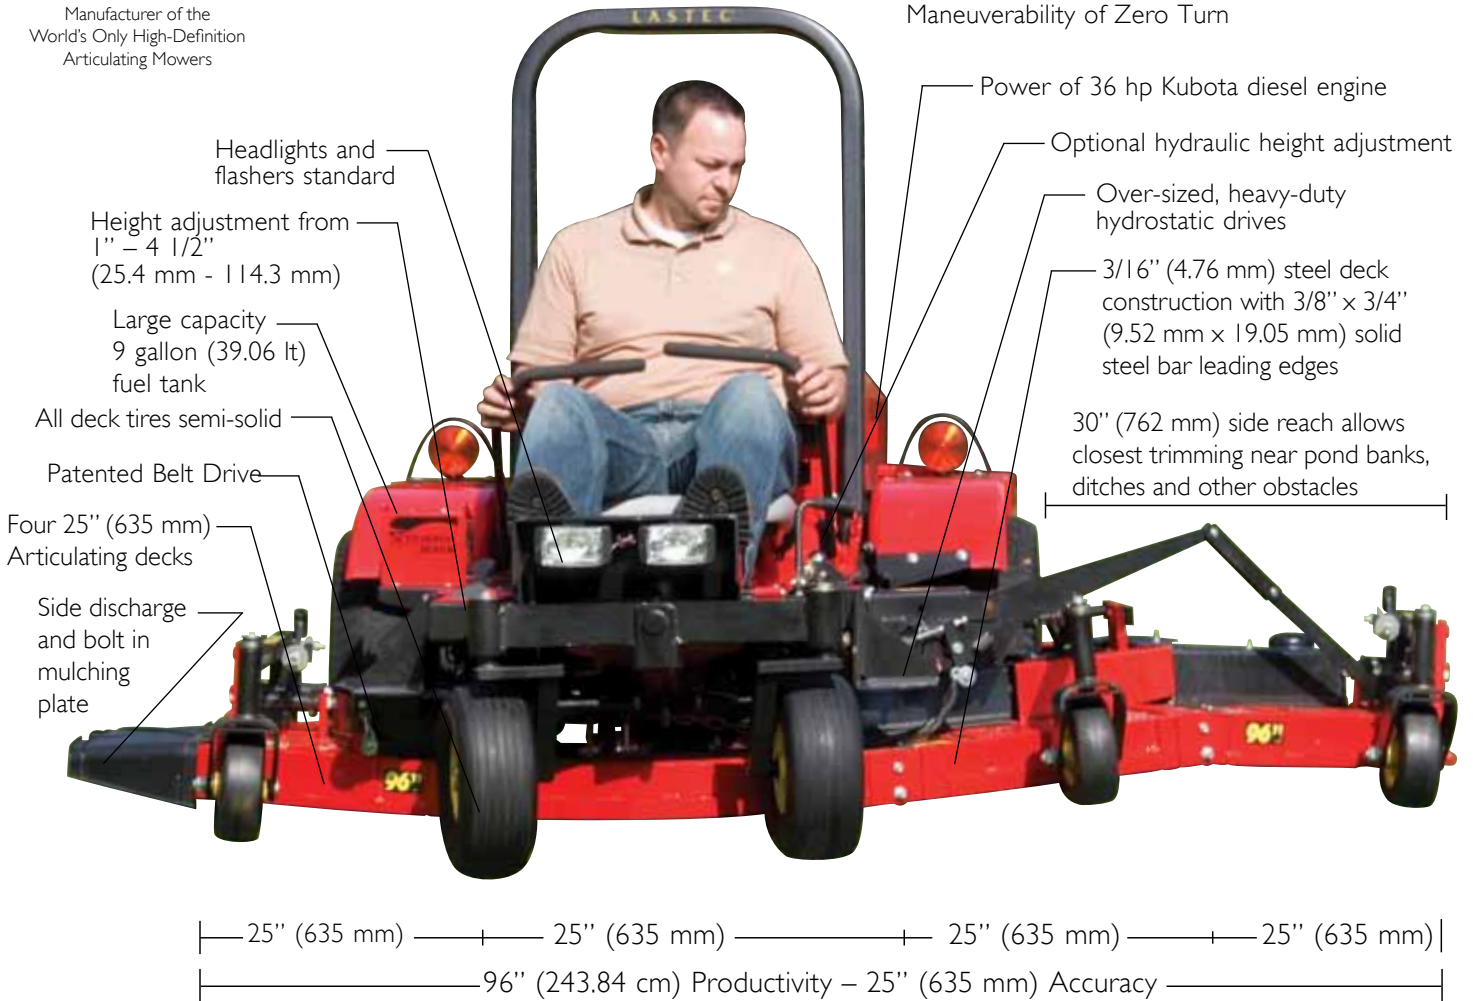

The Model 3696 is one of Lastec's top of the line self-contained Articulators. This machine cuts a path 96" (243.84 cm) wide and will match the productivity of competitor's machines costing 30-50% more. The unique features of this mower are its zero-turn maneuverability and its 30" (762 mm) side reaching capability. If your cutting needs include pond banks, overhangs near sand traps, deep grass bunkers, or the need to reach under low limbs or obstacles, there isn't a machine at any price that will deliver as well as the 3696. The efficiency of Lastec's patented belt drive system also allows the 3696 to cut at higher ground speeds than mowers with hydraulically powered decks that require far greater horsepower and fuel consumption.

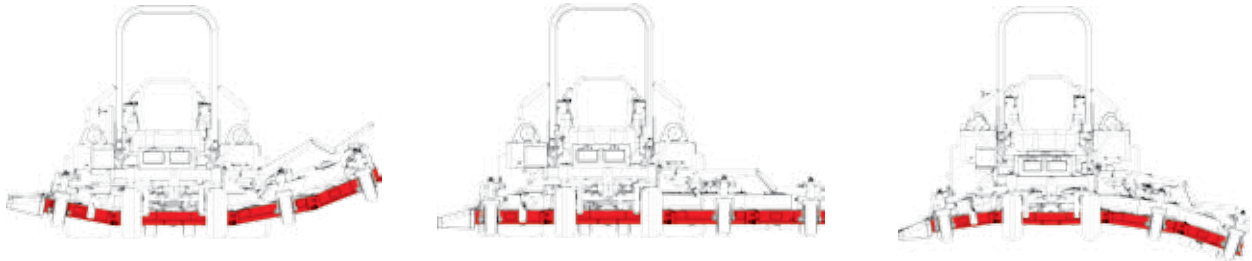

TURF/COMMERCIAL MODEL 3696

L A S T E C

Manufacturer of the
World's Only High-Definition
Articulating Mowers

Quality Rotary Mowers for a World that isn't Flat

3696 SPECIFICATIONS*

- Engine: Four cylinder 36 hp, (26.85 kW) water-cooled Kubota diesel
- Deck Height Range: 1" to 4 1/2" (25.4 mm x 114.3 mm)
- Deck Configuration: Four 25" (635 mm), 4" (101.6 mm) deep articulating
- Overall Weight: 2,200 lbs (990 kg)
- Speed: Infinitely variable up to 9 mph (14.5 km/h)
- Warranty: Two years parts, one year labor

U.S. Patent Nos. 6,065,274
