

Manufacturer of the  
World's Only High-Definition  
Articulating Mowers

## TURF/COMMERCIAL MODEL 100EFDC

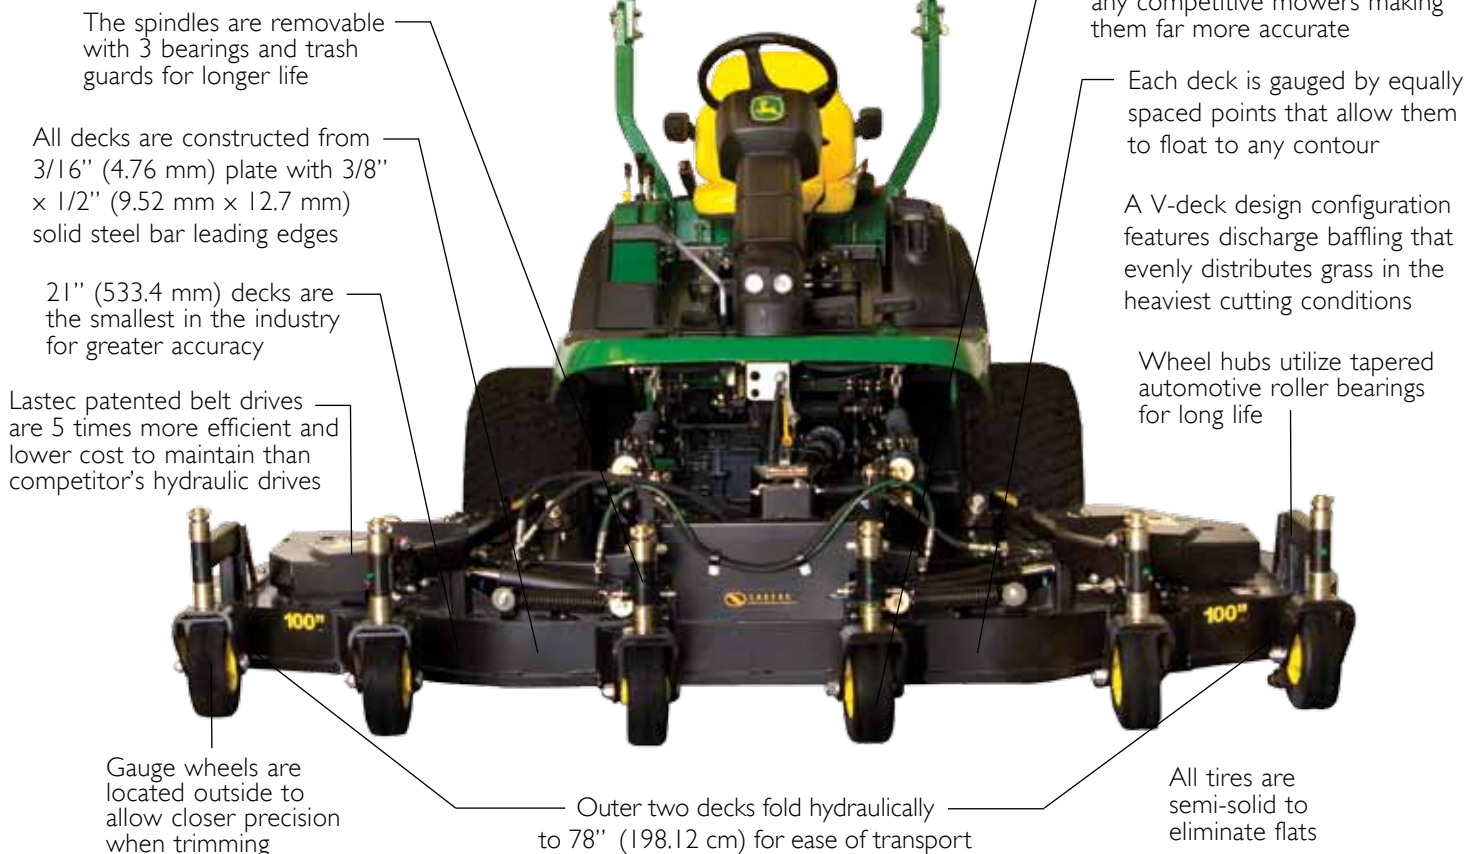

**The Model 100EFDC delivers amazing productivity at a price point that is a fraction of other options available on the market.**

Since Lastec's introduction of articulating rotary mowers in 1990, the turf industry hasn't had to accept the turf damage caused by wide area decks. Lastec Articulators all cut with the quality of a small push mower no matter how wide you need to cut. The Model 100EFDC is no exception, delivering a 100" (254 cm) wide cut with the accuracy of five 21" (533.4 mm) push mowers.
