

TURF/COMMERCIAL MODEL 100ER

LASTEC®

Manufacturer of the
World's Only High-Definition
Articulating Mowers

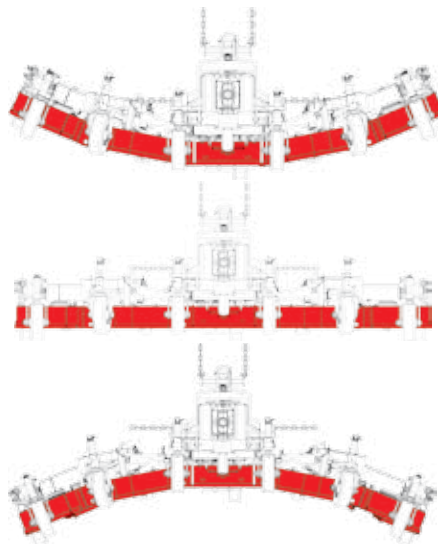

The Model 100ER delivers amazing productivity at a price point that is a fraction of other options available on the market.

Since Lastec's introduction of articulating rotary mowers in 1990, the turf industry hasn't had to accept the turf damage caused by wide area decks. Lastec Articulators all cut with the quality of a small push mower no matter how wide you need to cut. The Model 100ER is no exception, delivering a 100" (2.5 M) wide cut with the accuracy of five 21" (535mm) push mowers.

This versatile model mounts to a variety of tractors and delivers a cut so accurate that a whole new term describes it...

High Definition Mowing.
